

PORSCHE PRE-PURCHASE INSPECTION REPORT

C

Report Guidance

Any items appearing in the **red** column are of an urgent nature and should be rectified either prior to purchase or be reflected in the purchase price so any remedial work can be carried out as soon as possible after purchase.

Any items appearing in the **amber** column are not necessarily of an urgent nature; however any associated costs should be taken into consideration when negotiating the purchase price.

Any items appearing in the **green** column are in a serviceable condition and acceptable for the age and mileage of the vehicle.

The test drive can only be carried out with the current vehicle owners' permission and if the vehicle is deemed safe to drive. The test drive does not explore the ultimate performance, braking or handling of the car. The test drive normally lasts a few miles and checks operations of controls and systems, whilst adhering to local speed limits and regulations. Where possible, a varied route will take place.

O/S = Driver side on a right hand drive vehicle, N/S = Passenger side on a right hand drive vehicle.
